Voting for Greens Councillors next Saturday

The Who ...

Andrew Sloan

Kathy Rice

Paula Gowans

Len de Roover

Pat Dunn

Warren Holder

The Why ...

In recent times Kiama Council has served its community well. Greens councillors have been part of the mix that has represented the broad community fairly and honestly. It has been a Council that has demonstrated a willingness to resist attempts by both Labor and Liberal State Governments to reduce the ability of local communities to determine their own futures.

Greens councillors have been prominent in develping the direction and focus of Kiama Council during this time.

Next Saturday we will elect 9 Councillors and it is important that Greens Councillors are part of the mix and can bring to the work of the new Council the same values of fairness, honesty and commitment that have worked so well in the past.

Greens Councillors have a reputation for:

- listening to residents, responding to community concerns and involving the community in decision making,
- understanding the complex laws which control what Councils can and can't do,
- planning for the long term future of the Kiama area and community rather than a short term gain for a few,
- being responsible and protective of Council managed community assets and finances,
- respecting the natural environment and farmlands,
- recognising the role that cultural activities play in the lives of the residents of all ages,
- promoting a sustainable local economy based on the natural assets of the area.

This means that Greens Councillors will:

- be able to help develop policies that meet community needs and expectations for a sustainable future,
- make consistent decisions supporting development that fits the rules and opposing over development,
- place a high value on financial responsibilty,
- reject attempts to privatise Council managed community assets such as Blue Haven and the Kiama Leisure Centre,
- protect the natural assets of the area, including the productive food producing farmlands, from urban sprawl,
- help develop policies that respect local indigenous culture, promote cultural diversity and provide opportunities for performance and exhibition,
- promote local food production and low impact tourism.

and the How ...

To vote for The Greens place a 1 in the box for Group E

If you wish, place further numbers, 2,3,4 etc in the boxes above the dark line in the order of your choice.

Group A	Group B	Group C	Group D	Group E	Group F
